Community Schools as an Essential Facilities Strategy
Malone & Jacobson, 2014

School buildings communicate important messages to our children, their families, the community, and the educators and personnel that work there. A school's physical appearance speaks to people about the value our society places on education and on the role of the school in the community. Too often, our urban school facilities send the wrong messages.

Designing Safe Schools: Planning and Retrofitting for Safety in Educational Facilities

Archived Webinar

On Thursday, April 30, 2015, the U.S. Department of Education's (ED) Office of Safe and Healthy Students (OSHS), with its Education Facilities Clearinghouse (EFC) and Readiness and Emergency Management for Schools (REMS) Technical Assistance (TA) Center, celebrated National PrepareAthon! Day by hosting a Webinar that provided insight on safety and security design and cost-effective features to consider for new construction of or retrofitting existing school buildings and grounds.
